There is no conflict of interest.
Many people with dementia had a dream...
Our Vision

“A world where a person with dementia continues to be fully valued.”
Reaching the world: over 130 members in over 6 countries

Support and Advocacy: Of, by and for people with dementia
Through strong advocacy, we have collaborated with ADI, and are now the peak body globally for people with dementia.
We speak up for full inclusion and a place at every international dementia table...

No longer about us without us.
By not including us, the stigma, discrimination, prejudice, myths of dementia and isolation are being exacerbated, by the organisations, researchers & service providers purporting to improve our lives or advocate for us.
What we do

• Website, weekly blog, newsletters
• Weekly online support groups
• Advocacy and speaking roles
• Master Classes
• Monthly Webinars: A Meeting of the Minds
Supported by technology

• Zoom platform for online
  – Board meetings
  – Events
  – Educational webinars
  – Master Classes
  – Weekly support groups
Collaboration is the key to our continuing success
A global voice

• Advocated for a person with dementia to become a member of the World Dementia Council

• A member was invited to present at the World Health Organisations first Ministerial Conference on Dementia in March
Living well with dementia...

It is possible

• The attitudes of, and support from researchers and health care professionals need to change on this.

• The language of dementia needs to change; see Alzheimer's Australia updated language guidelines - https://fightdementia.org.au/sites/default/files/language%20guidelines.pdf

Support and Advocacy: Of, by and for people with dementia.
"People will forget what you said; people will forget what you did... But people will never forget how you made them feel."
“Never doubt that a small group of thoughtful committed citizens can change the world – indeed it is the only thing that ever does.”
